THE QLOCKTWO®-FAMILY

A matrix of 110 characters arranged in a square forms the basis of every QLOCKTWO®. Behind these letters, 110 LEDs can be switched on to illuminate individual letters, which form words that describe the time in five-minute intervals. IT IS HALF PAST SEVEN. Four dots lighting up in the corners represent the minutes between each interval.

QLOCKTWO® is available in four sizes.

The 45 × 45 cm QLOCKTWO® CLASSIC is mounted onto the wall like a picture, but can also be set up in freestanding position with two small acrylic glass supports.

QLOCKTWO® LARGE in the 90 × 90 cm large format. A timeless eye-catcher.

QLOCKTWO® TOUCH is milled from a single aluminium block and has a very handy size with its dimensions of 13.5 × 13.5 cm.

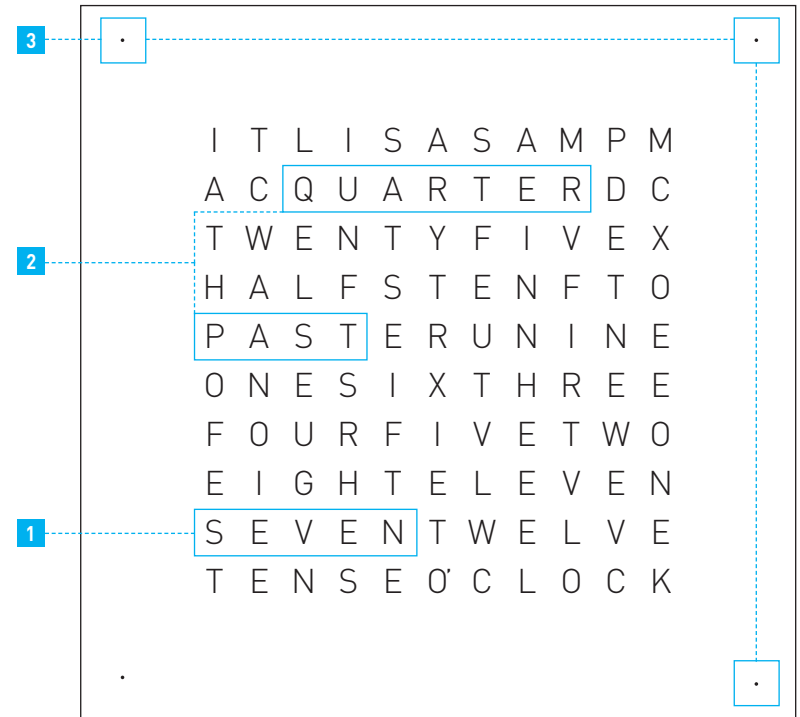

The 35 × 35 mm wristwatch QLOCKTWO®  displays the time at the touch of a button. Furthermore date and seconds are shown.

QLOCKTWO® – TIME IN WORDS

QLOCKTWO® makes you pause and look at time in a different way.

The typographic display combines the moment with the written word and turns it into a statement: "IT IS QUARTER PAST SEVEN."

- 1 Hourly display
- 2 Text in five-minute intervals
- 3 Each illuminated dot = 1 minute later

THE QLOCKTWO® – MANUFACTURE

QLOCKTWO®-products are produced according to highest quality standards in the manufacture of BIEGERT & FUNK based in the German town of Schwäbisch Gmünd.

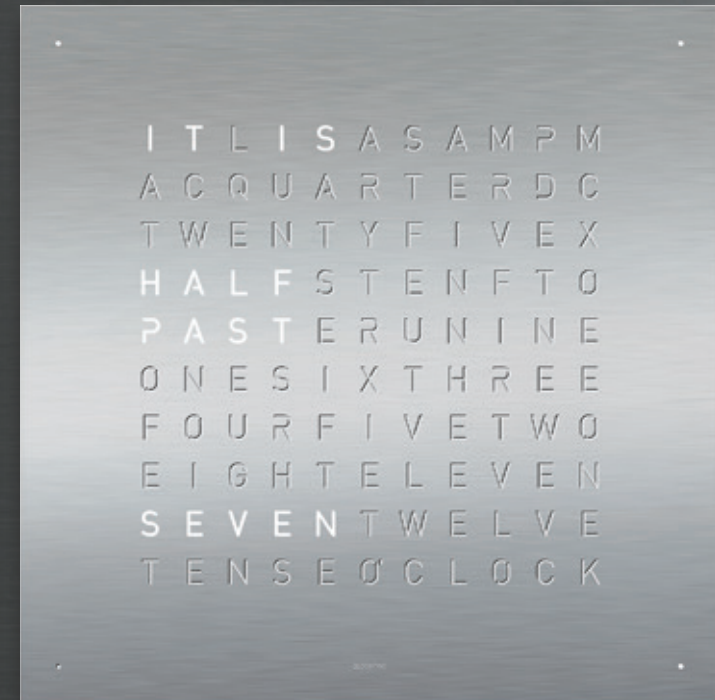

AWARDS

Since their launch, the QLOCKTWO® family has received more than 20 international awards including the Red Dot Design Award, the iF Product Design Award and the ADC Europe's Gold Award.

A selection of awards QLOCKTWO® received.

The stainless steel surface of the QLOCKTWO® CREATOR'S EDITION GOLD is covered with gold leaves by hand. Edge by edge every cut-out letter is finished carefully, giving the front cover the typical gold leaf structure and ensuring a truly royal appearance.

The precision of laser cutting is fused with the centuries-old tradition of craftsmanship. Every QLOCKTWO® CREATOR'S EDITION GOLD is signed and individually numbered using laser engraving.

QLOCKTWO® CLASSIC | CREATOR'S EDITION GOLD

42143

The QLOCKTWO® CREATOR'S EDITION

PLATINUM is made according to the same

principle as its golden sister – covered by

hand with leaves of pure platinum.

Noble and mystical.

TECHNICAL DATA

DIMENSIONS

Body made of wood, white lacquer, with front cover: 45 × 45 × 2.2 cm

Wall bracket: 24 × 24 × 2.5 cm

Acrylic glass supports for freestanding setup: 12 × 3 × 3 cm

POWER SUPPLY

Input: 5 V \Rightarrow 550 mA

Operating current: 2-3 Watt

USB power supply: Input: 110 V – 240 V – 50/60 Hz, Output: 5 V \Rightarrow 800 mA

FRONT COVER

■ QOLOR (acrylic glass)

■ STAINLESS STEEL

Stainless steel, laser-cut letters, brushed

■ BLACK PEPPER / WHITE PEPPER / RED PEPPER / HAZELNUT

Stainless steel, laser-cut letters, powder-coated, matt

■ CUSTOM COLOR

Stainless steel, laser-cut letters, powder-coated, matt, individual special color RAL

■ CARBON FIBRE

Extremely fine carbon, laser-cut letters, corpus in mat black

■ CREATOR'S EDITION RUST

Raw steel, laser-cut letters, hand-rusted

■ CREATOR'S EDITION GOLD

Stainless steel, laser-cut letters, covered with gold leaf

■ CREATOR'S EDITION PLATINUM

Stainless steel, laser-cut letters, covered with leaf platinum

■ CREATOR'S EDITION RAW IRON

Raw steel, laser-cut letters

QABLE

Textile cable, length: 3.50 m, diameter: 5 mm

TEXTILE CABLE

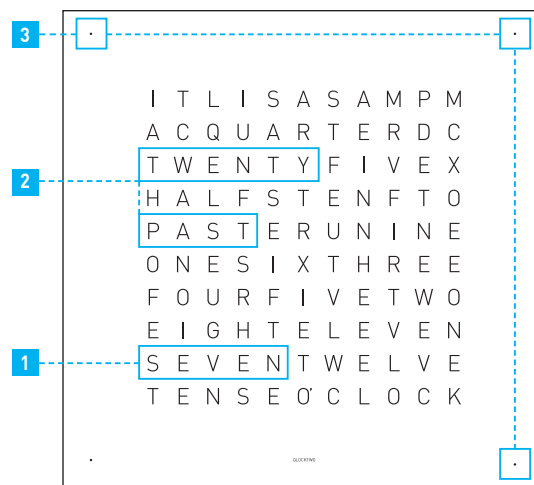

High-quality textile cable with colored fabric cable sheath. Ideal for wall-mounting the QLOCKTWO® CLASSIC without 220V direct power outlet from the wall. Stages the visible power supply as a design element.

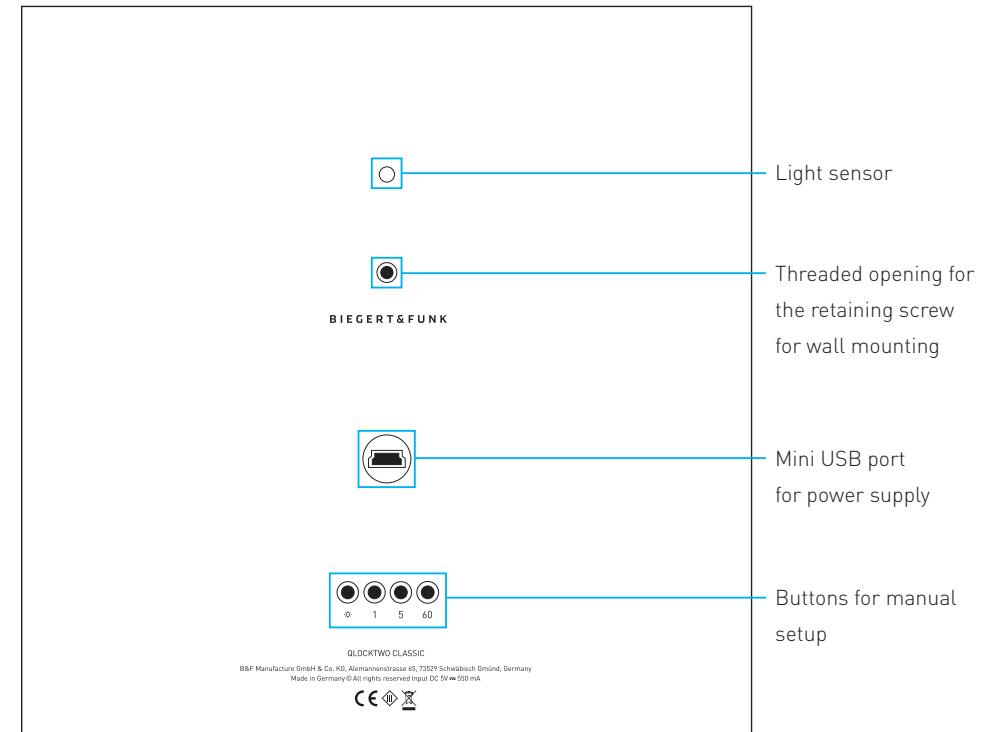

QLOCKTWO® CLASSIC

QLOCKTWO® displays the time typographically in combination with four illuminated dots. The introductory words "IT IS" can be turned on and off.

In the selectable “purist mode” the two words only appear every full and half hour. At **7:23** the display looks as follows:

- 1 Hourly display
- 2 Text in five-minute intervals
- 3 Each illuminated dot = 1 minute later

BACK

The time can be set manually with the following buttons:

60 = 1-hour steps

5 = 5-minute steps

1 = 1-minute steps

The LEDs' brightness automatically adjusts to the surrounding light.

You can also set the level of brightness manually.

QLOCKTWO® CLASSIC

LANGUAGES

QLOCKTWO® is delivered in the selected language.

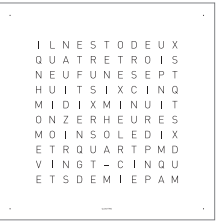

To display the time in another language, you simply need the respective front cover, which is available as an accessory.*

QLOCKTWO® CLASSIC

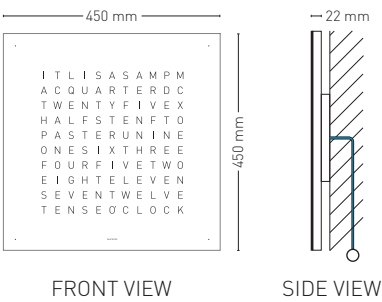

INSTALLATION

The QLOCKTWO® can be set up in three different ways. A freestanding setup as well as a wall-mounted setup with visible or non visible power supply is possible.

All the necessary components are included in the packaging.

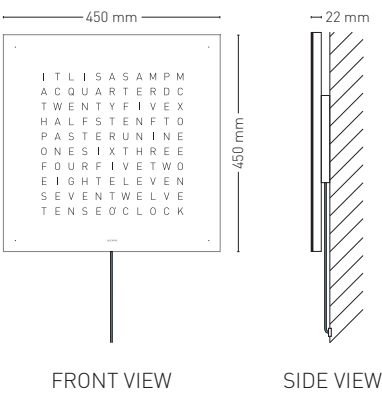

WALL MOUNTING

The provided wall bracket includes a slot for a hidden power supply. The mains adapter is hidden behind the wall bracket.

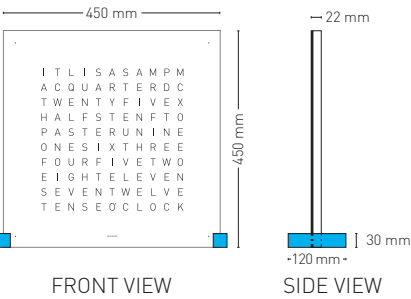

WALL MOUNTING WITH VISIBLE POWER SUPPLY

Visible power supply with standard cable or colorful textile braided QABLE (available as accessories in various colors).

STANDING VERSION

Two acrylic glass supports are included in delivery so that QLOCKTWO® always stands tall. (Not available for CREATOR'S EDITION GOLD & PLATINUM).

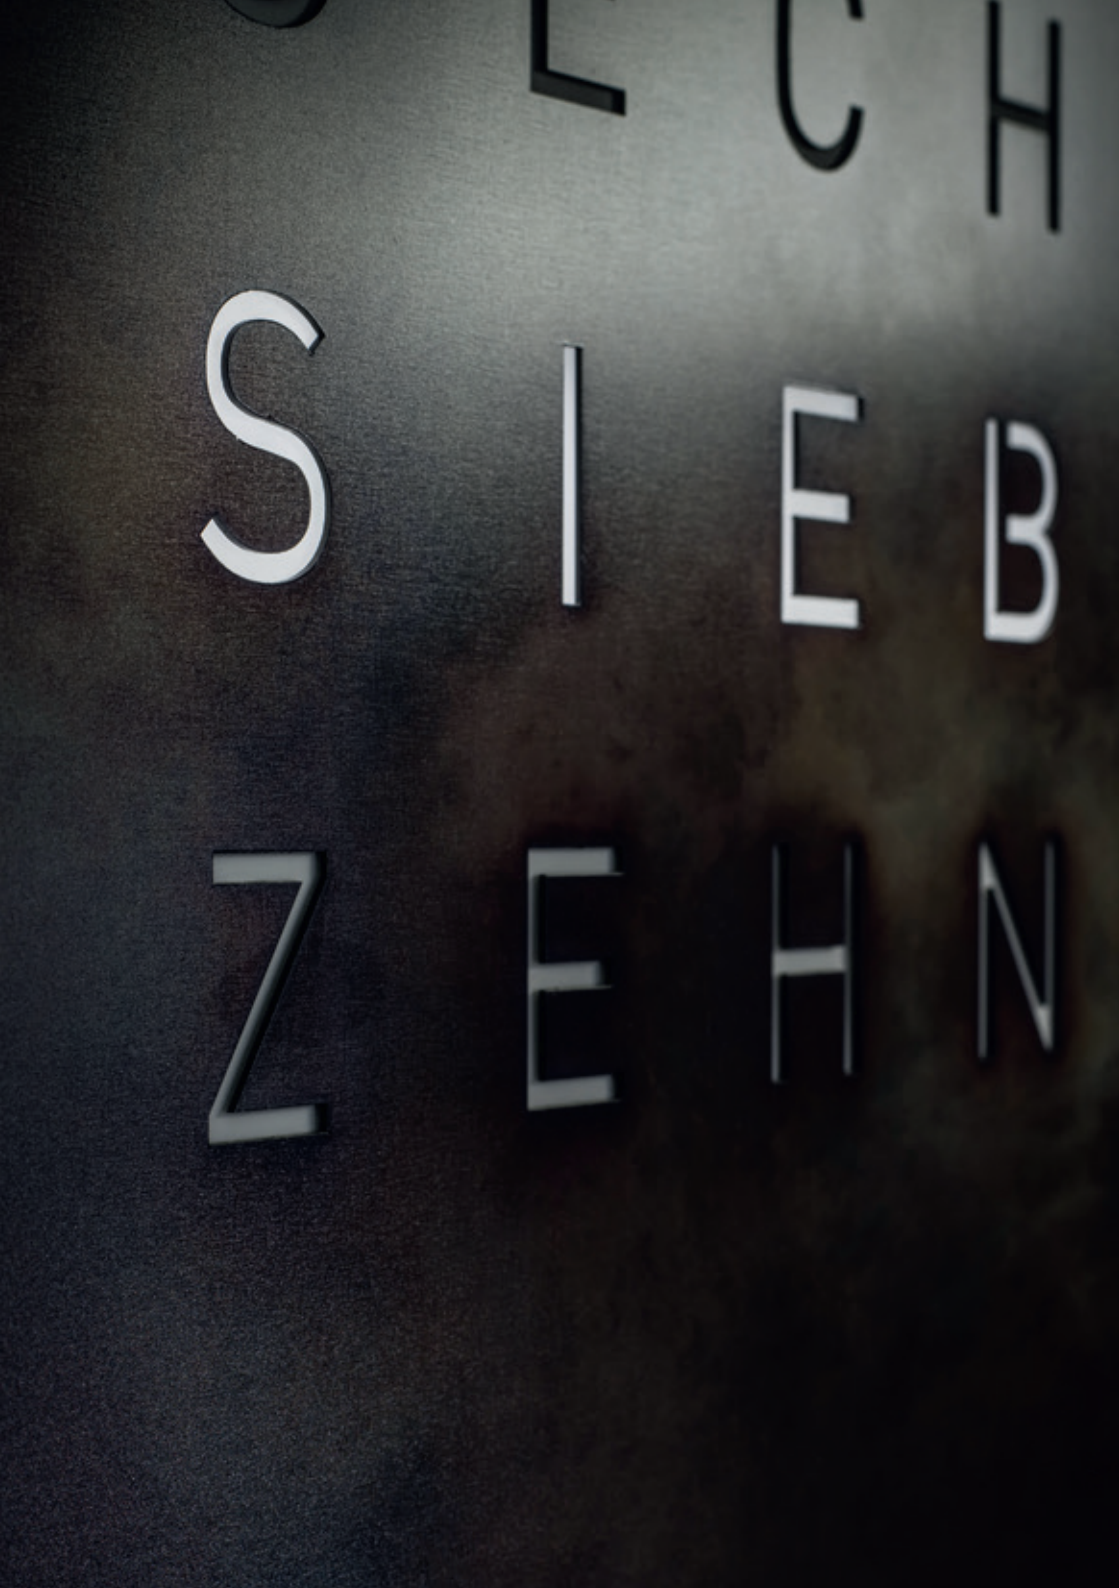

QLOCKTWO® LARGE

QLOCKTWO® CLASSIC's big sister with a front cover made of brushed or matt, powder-coated stainless steel in 90 × 90 × 3.5 cm.

Also available as CREATOR'S EDITIONS RUST, RAW IRON, GOLD or PLATINUM. Selection of various colors and languages.

QLOCKTWO® TOUCH

FUNCTIONS

ALARM FUNCTION

QLOCKTWO® TOUCH reliably wakes or reminds you. First gently, then persistently. The alarm function is activated by pressing the alarm button on the back of the QLOCKTWO® TOUCH. If the alarm is currently active or in snooze mode, it can also be deactivated by a longer touch of the top of the case.

SNOOZE

Gently touching the QLOCKTWO® TOUCH snoozes the alarm for 5 minutes, allowing you a little extra time to rest.

BRIGHTNESS

The letters' brightness automatically adjusts to the ambient light. At night the time display is dimmed and can be read comfortably. Furthermore, the level of brightness can be manually adjusted to three different settings depending on the lighting.

NIGHT TOUCH

In this setting the time display is completely dark. If the alarm is activated, only the alarm symbol will shine. To read the time, simply touch the top of the case and the time will be displayed for 2 seconds. By touching the clock twice, the alarm time will appear.

NIGHT-LIGHT

At the touch of one button all letters light up creating a small island of light.

SECONDS MODE

The seconds will appear as large numbers in the matrix.

QLOCKTWO® 520

QLOCKTWO® 520 | RUST

108 | 109

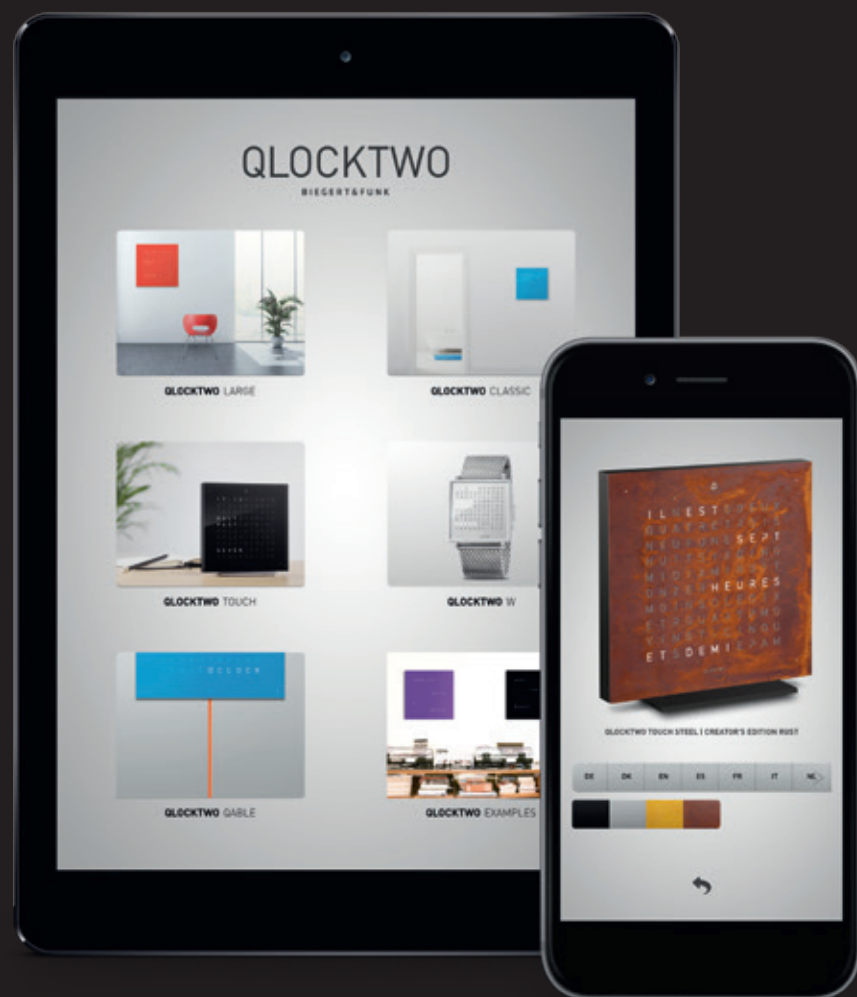

QLOCKTWO® 520

The largest word clock in the world

The front plate made of Corten steel measures gigantic 5.20 × 5.20 m and weighs more than two tons. Each of the 110 letters has been cut out of the 16 mm thick steel plate using high-precision laser technology.

As for all QLOCKTWO® models, the matrix of letters consists of 110 LEDs. For “civil” models these are single diodes, whereas for the “520” a weatherproof LED spotlight with immense luminance is used for every letter.

As for the much smaller serial-production models, the words change every five minutes. IT IS FIVE PAST NINE. Four dots in the corners represent the minutes between each interval. The whole clock is operated by a high-quality, specifically developed electronic unit which also adjusts the level of brightness to the particular lighting conditions. Thus at night the time display is dimmed reducing energy consumption.

QLOCKTWO® CONFIGURATOR

QLOCKTWO® CONFIGURATOR is available on the App Store and on Google play for smartphones and tablets.
