

wästberg / w084 studioilse

Product Information

Materials have hidden messages. These create a powerful link to our emotional psyches and shape our connection to daily life.

The w084 studioilse lamp is a sturdy friend, unpretentious and always there for us. We chose honest materials that carry clear messages: iron because of its feelings of stability, reliability, trust; wood because of its warmth and life, and mineral plastic because of its intimate glow, as well as its tactility.

Then we combined the three, trying to achieve a certain oddness. There is an innate awkwardness in the directional light that we wanted to amplify – rather as with people, this is a sympathetic quality, not a sin.

Design: Ilse Crawford

Material (table, floor)	The base is made of sand-casted iron that is treated with vegetable oil and then burnt. The arms are made of beach, the joints of die-cast aluminum and the shade is made of injection moulded chalk/glass/PBT.
Dimmable (table, floor)	The light is dimmable at the turn of a dimmer button.
Slightly transparent shade (table, floor)	The white shade gives a slightly transparent glow.
Friction joints (table, floor)	The friction joints are used to adjust the arm to the preferred fixed position.
Adjustable shade (table, floor)	The shade can be adjusted both vertically and horizontally.
Rotation mechanism (table, floor)	A rotation mechanism in the iron base allows rotation of the lamp.
Material (pendant)	The shade is made of aluminium.
Material (wall)	The bracket, counter-weight and dimmer-housing are made of sand-casted iron that is treated with vegetable oil and then burnt. The arm of the wall version is made of beach.
Integrated LED (pendant, wall)	The light technology is based on an energy-efficient, high quality LED solution, which gives a warm white light.
Dimmable (pendant)	The shade has an integrated dimmable electronic driver that enables dimming from an external dimmer. For example, a wall dimmer.
Dimmable (wall)	The wall lamp is equipped with a dimmer and dimmer-housing on the cord.
Glare-protecting shade and diffuser (pendant, wall)	The shade protects from glare while the diffuser gives an evenly disturbed light over a large surface.

Product name	w084 studioilse t1			w084 studioilse t2			w084 studioilse f		
Dimensions (mm)									
Model	Table lamp – one arm			Table lamp – two arms			Floor lamp		
Mounting	Base			Base			Free-standing		
Material	Cast iron, aluminium, beech, chalk/glass/PBT			Cast iron, aluminium, beech, chalk/glass/PBT			Cast iron, aluminium, beech, chalk/glass/PBT		
Cord length	200 cm - textile cable			200 cm - textile cable			300 cm - textile cable

Wästberg is a Swedish lighting company aimed at bringing back light to human proximity, by restoring the private spheres man has been deprived of during decades of misguided pursuit of efficiency and standardisation. The universally acclaimed lamps are created in close collaboration with some of the world's most renowned architects, designers and lighting experts, and have earned prestigious awards for their combination of aesthetics, cutting-edge technology and resource conservation.
